Gonzalez Statement on Short-Term Republican Spending Bill

Washington, DC – Congressman Charles A. Gonzalez (TX-20) today released the following statement on **the Department of Defense and Further Continuing Appropriations Act 2011**:

"House Republicans pushed forward a spending bill that included many dangerous cuts, including to programs that assist women and children and low-income families, that would have serious impacts on our communities, and they did so under the guise of funding for the Department of Defense," said Congressman Gonzalez. "This was not a serious effort to finding a solution to fund the government for the rest of the fiscal year. This bill does not help our economy or the ongoing negotiations to reach a compromise."
