

“It is extremely unfortunate that this incident has occurred at the San Antonio Independent School District. This matter will not be taken lightly, and a full investigation is underway. The most important issue is that our public institutions are committed to the highest level of good stewardship of taxpayer money, but when incidents such as these occur, those wrongdoers must be brought to justice. However, it is also extremely important that the wrongs of a couple individuals should not reflect on the great work performed by SAISD’s dedicated employees who work honestly and tirelessly to educate our children.”
